

Imagine Getting Maximum Exposure For  
Your Business Without Even Having A  
Website For Just Pennies A Day...

...Reach 90% More Customers Than Ever  
Before By Using Our One-Of-A-Kind Service

Do me a favor and just give me 15 minutes of  
your time and I'll unveil to you the secret way to  
get the kind of exposure that will have your  
phones ringing off the hook in no time. By  
following our secret method, you can watch as

your traffic to your website (if you have one) jumps through the roof in no time at all. I've done it for many of my customers and can do it for you.

And did I tell you that you can do it as little as pennies a day?

You may be skeptical at this point. Who wouldn't be? My previous customers didn't think it could be accomplished until after they tried our services and get instant exposure. You can

enjoy the same benefits if you know what to do  
and how to do it.

Dear Friend:

Everyday you struggle to find customers, people who are willing to buy right away. You probably spend thousands of dollars in advertising costs. The result of your efforts is maybe a handful of people who call or stop by to see what you have to offer. A handful out of thousands is not very good odds.

Wouldn't you like to take your hard earned dollars and focus that money on a method that will guarantee you exposure beyond your wildest dreams?

I am talking about exposure that will produce over 90% more leads to your business. Think about it. With our method you get up to 90% more leads than you ever could on your own.

Your methods may find you putting little ads in newspapers and in the back of magazines, which people won't see for two to three months anyway, especially if the magazine is published monthly. Or you may place an ad in the Yellow Pages. The only problem with a Yellow Page ad is they charge you extra to list you in their online directory. When people click on your ad, they see not only your ad but your competitor's ads to. This doesn't help you.

I know. I've been there. I use to go the conventional way of advertising, only to be disappointed with the results. When I applied the methods I will show you, I noticed an immediate

increase in business. I knew I found the way to gain tremendous amount of exposure. I just had to make sure it wasn't a fluke. Sure enough after a lot of testing, I found a winner of a deal. And you'll soon see this for yourself. You'll discover one thing about us:

**We are not your usual Internet advertising company**

We go beyond what normal advertisers do. We not only connect you with other local businesses, but we also ensure you get found in places like Google, Yahoo, MSN, and many others. We place you the local section of each popular search engine. So if someone searches for traffic or advertising, our ad and link will show up.

Take a look at some interesting statistics:

- **30% of every search** on the Internet is local in nature, meaning that local consumers are looking for local merchants.
- **70% of U.S. households** use the web to help make decisions when shopping locally for products or services.
- **75% of Internet Users** have looked for services and products within an area close to their home or business.

As you can see our business caters to you and what you need.

And what is even more impressive is we work behind the scenes to make sure you get the most exposure possible

while you rake in the money. We do the dirty work while you rake in the profits.

With our unique technology, we will make sure your phone is ringing off the hook and in less time than you could cook a full course dinner.

With our unique technology, you can actually watch as your customer base grows and you can see where your customers are coming from with our state-of-the-art tracking system.

We don't just stop there. **We also supply you with a directory of non-competing businesses that link back to your website.**

By having incoming links, your ranking with search engines goes higher which means you have more exposure in search engines. **And if you tell others about this directory, and they sign up, we'll thank you by giving you \$100 bucks just for referring them to our directory.** You can't do better than that!

If you don't have a website, we will create customized site just for you where all links point to. This way you gain exposure online as well as offline. This website will act as an advertising page that will give your customers the information they will need to contact you including a map of your business. Also included on the site will be your location, contact information, hours of operation, brands you carry, associations you belong to, and professional designations.

And the best part is it only takes 15 minutes to set up and then watch the wheels turn.

By signing up with us and using our unique, one-of-a-kind service, here is some of what you will get in return:

- *Inexpensive advertising* – it only costs pennies a day to advertise with us
